Message from Founder VIP Fine Arts

Art greetings to all of you ...,

Art is beautiful. Presenting something beautiful like art to public, surely bring positivity, which we simply understand as goodwill.

Based on that, we aim to present the great spirits where could continuously take part / involve ourselves in advancing the growth of fine art, especially in Indonesia.

VIP Fine Art is opening its wide door, to have each other supports; from artists, art lovers, and all other related individuals / institutions within this field. We are also ready with our internal supports like our solid Human Resources team, also office, artwork's shipment vehicle, and gallery staffs. Selections of frames for various artworks with the framing staffs, property's rental support for exhibition like panels hire, cooperation between artists (for exhibition or based on consignment) also art lovers most importantly, and good friendship being build up towards one another, would all bring our desired success.

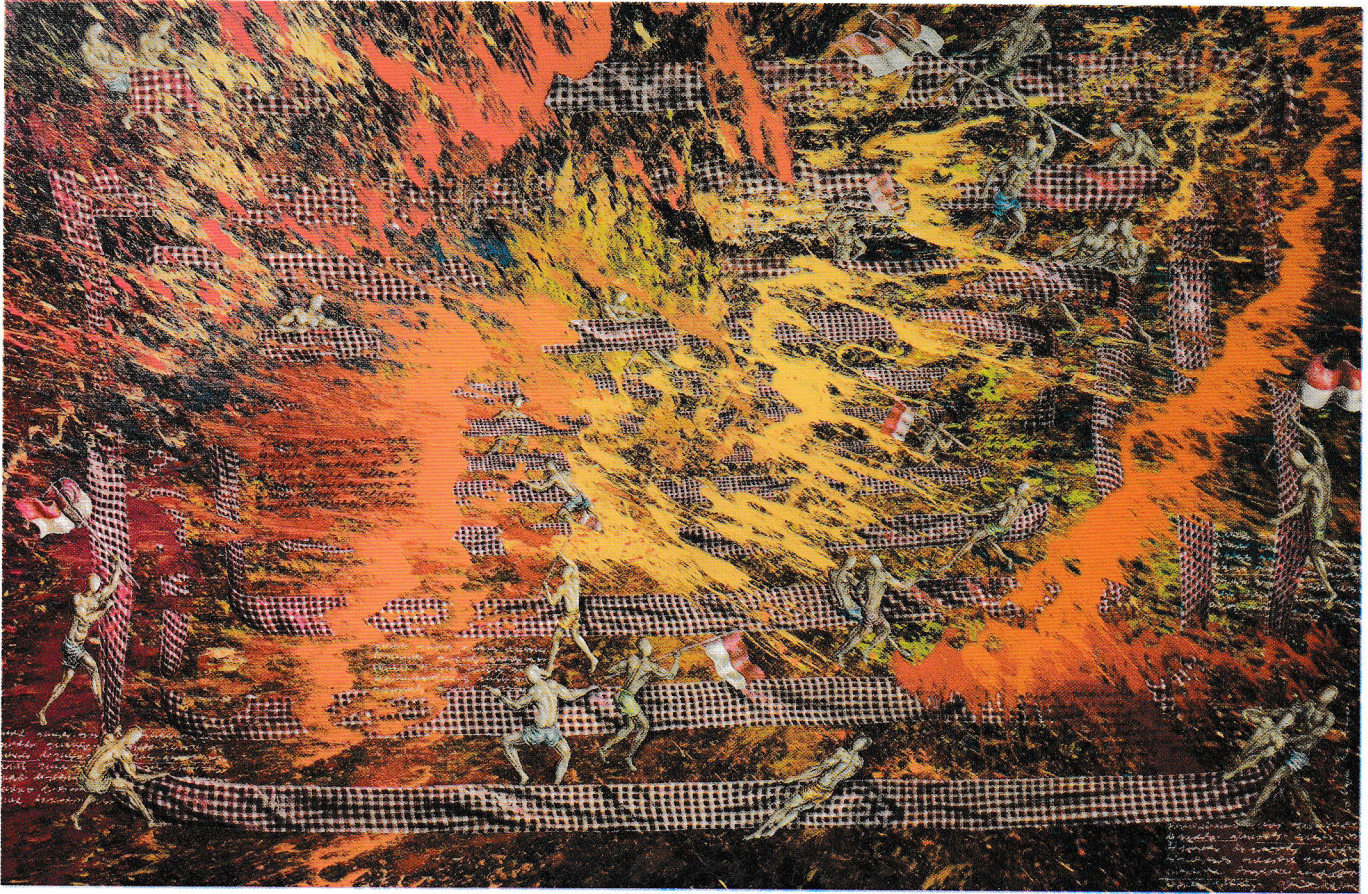

With our humbleness, we are deeply thankful for everything. Please do enjoy this exhibition. Hopefully our little offering, could bring positivity contribution we are all expecting, mainly in this fine art world.

Thank you.

Veronica Larasati
