THE WORLD IN SKETCHES

By: Bagus Nofianto - Bagoezt Art (Indonesia)

Welcome to "International Sketch & Drawing Virtual Exhibition #1", an International Virtual Exhibition that celebrates the boundless creativity and diverse techniques of artists from around the globe. This exhibition brings together an inspiring collection of works that highlight the power and beauty of the simplest artistic forms—lines, shapes, and shadows. From intricate, detailed sketches to bold and expressive drawings, this collection showcases how drawing and sketching transcend cultural and geographical boundaries to form a universal language of art.

Drawing, in its many forms, has been a cornerstone of human expression for centuries, serving as a bridge between thought and reality, concept and creation. This exhibition aim to honor the unique perspectives and stories that each artist brings, while exploring the role of drawing and sketching in contemporary art. Here, you will find a range of works that explore themes of identity, nature, abstraction, and realism, all unified by the artist's hand and vision.

We invite you to immerse yourself in this celebration of lines and marks that capture moments, emotions, and ideas. May this exhibition inspire you to see the world with a fresh perspective and to recognize the artistry in the simplest sketches and the most detailed drawings.

Enjoy exploring the richness of this collection, and let it remind you of the creative power and expressive potential that drawing and sketching hold.

Strong Winds Blowing At The Denpasar Art Centre (angin Kencang Bertiup Di Taman Budaya Denpasar)

Artist : Dr. I Wayan Setem, S.Sn., M.Sn

Country : Indonesia Size : 30 x 20 cm

Technique: Expressive etching using

Chinese ink on paper

Year : 2024

Wind is the movement of air from areas of high pressure to areas of low pressure. Wind is also understood as air; air. Even though it often brings freshness and coolness, there are also winds that are destructive for humans, such as hurricanes, typhoons, tornadoes, and so on. However, the presence of wind in life can give rise to inspiration to create beautiful works of art. "The wind is us, it collects and remembers all our voices, then sends them speaking and telling through the leaves and swaying trees."
