The logo consists of three concentric circles. The text "Nata-Citta Art Space" is written in a serif font, with "Nata-Citta" in a larger, bolder font than "Art Space". The text is positioned to the right of the circles, with the circles partially overlapping the letters of "Nata-Citta".

# Nata-Citta Art Space

The new art space which is a part of the Indonesian Institute of the Art (ISI) BALI, dedicated to art exhibitions as well as being a creative laboratory and centre for art studies. This exhibition hall has supporting facilities that are representative for holding national and international exhibitions. This Art Space was inaugurated on January 8th 2023 was marked by the international exhibition Bali Bhuwana Rupa, involving 42 selected artists from across nations. They include from France, Japan, Greece, Netherlands, Australia and Indonesia.

Nata-Citta Art Space (N-CAS) is a leading visual arts space in Bali. Originally built in 1991, N-CAS, covering 1,000 square meters, was designed as a center for the dissemination and actualization of high-quality art and design works. N-CAS underwent a renovation in 2024, transforming the interior space by integrating the pillars into a display wall for art and design works. The lighting system was designed to be world-class, contemporary gallery-grade.
